VaLUENTiS practitioners invited to 'Engage For Success' guru network

VaLUENTiS directors Nicholas J Higgins and Graeme Cohen invited to join the government flagship 'Engage For Success' guru network in recognition of their intellectual and practitioner contribution.

Nicholas J Higgins, CEO of VaLUENTiS and Dean of ISHCM*, remarked "As innovators in this space, it's good for our contribution to be recognised. I've been critical of some of the output from the Task Force and its impact in the past. I'm naturally sceptical of government task forces – there's a tendency for them to descend into PR exercises of self-interest. This announcement is hopefully a step in the right direction."

Graeme Cohen, COO of VaLUENTiS, commented "I'd like to think my day-to-day involvement with client senior management on employee engagement issues can be seen as a naturally occurring task force. One has to earn the right to be called 'a guru'. I'd like to think our clients see us as experts. If we can contribute on an industry-wide platform, so much the better."
